

Wilmar T Macheke

Software Engineering Student | Full-Stack Developer | Problem Solver

Email: axecrow12@gmail.com

Location: Harare, Zimbabwe

Phone: [+263781465862, +263771231504]

PROFESSIONAL SUMMARY

BTech Software Engineering student at the Harare Institute of Technology with hands-on experience in full-stack application development, backend API design, authentication workflows, and user-focused interface design. Strong interest in building practical digital products in agriculture, fintech, and offline-first mobile systems.

EDUCATION

Harare Institute of Technology

BTech in Software Engineering (in progress)

EXPERIENCE

Software Development Intern

Afrosoft | 6-month industrial attachment

- Contributed to software projects and strengthened practical experience in backend development and modern workflows.
- Worked with Spring Boot, Docker, Python, HTML, CSS, GitHub, and GitLab in a collaborative environment.
- Translated requirements into implementable technical tasks and supported delivery across project stages.

SELECTED PROJECTS

Agrovia - Agricultural Platform

Academic / Product project

- Designed a platform to reduce middleman inefficiencies by connecting farmers, buyers, and cooperatives more directly.
- Defined modules such as a community hub, resource-sharing marketplace, group buying, direct trading, and analytics dashboards.

KuraVisor - Offline-First Farm Intelligence App

Concept and technical exploration

- Explored crop disease detection, farm records, and profit/loss tracking for low-connectivity environments.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, HTML, CSS, SQL

Frontend: React, Vite, SCSS, responsive UI design

Backend: Node.js, Spring Boot, REST APIs, JWT auth,

Databases: MySQL, PostgreSQL, Prisma

Tools: Git, GitHub, Android Studio, Docker, Postman, Vs Code

CORE STRENGTHS

- Full-stack development
- Problem analysis and system design
- UI refinement and presentation-ready interfaces
- Debugging and technical troubleshooting
- Project documentation and technical presentations

LEADERSHIP

- Experience leading and coordinating teams in academic and project settings.
- Comfortable presenting technical ideas clearly to technical and non-technical audiences.
